FLOOR BRUSHES

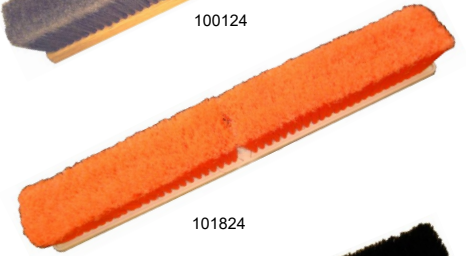

Wide selection of quality floor brushes for a variety of applications. All blocks come with two threaded handle holes, allowing you to extend the life of your brush. Order threaded handles separately.

Flagged Polypropylene: For fine sweeping. Effectively cleans smooth & semi-smooth surfaces. For indoor use under dry conditions. Available in gray or orange poly. Block is 2-7/8" wide and 7/8" thick. Trim 3".

		18"	24"	36"
Wood Block	Gray Poly	100118	100124	100136
Plastic Block	Gray Poly	100718	100724	
Plastic Block	Orange Poly	101818	101824	

100124

101824

100236

Black Tampico: For medium sweeping. Effectively cleans smooth & semi-smooth surfaces. For indoor/outdoor use under dry/wet conditions. Suitable for high-temperature surfaces or debris. Good chemical resistance. Available with 3" or 2-1/2" trim. Block is 2-7/8" wide and 7/8" thick.

Wood Block	18"	24"	30"	36"
3" Trim	100218	100224	100230	100236
2-1/2" Trim	100418	100424	100430	100436

Black Polypropylene: For medium sweeping. Long lasting bristles adequately clean semi-smooth & rough surfaces. Indoor/outdoor use under dry/wet conditions. Water and chemical resistant. Block is 2-7/8" wide and 7/8" thick. Trim 3".

	16"	18"	24"	36"
Wood Block	100316	100318	100324	100336
Plastic Block		100918	100924	

100324

Horsehair Blend: For medium sweeping. Mixture of horsehair & plastic bristle. Soft and resilient. Excellent for removing dust and light dirt from smooth surfaces. Block is 2-7/8" wide and 7/8" thick. Trim 3".

	18"	24"	36"
Wood Block	100518	100524	100536

100524

Horsehair Blend / Tampico Center: For medium sweeping. Mixture of horsehair and plastic bristle to sweep fine particles while the tampico center will move slightly heavier items. Block is 2-7/8" wide and 7/8" thick. Trim 3".

	18"	24"	36"
Wood Block	101718	101724	101736

101724

FLOOR BRUSHES

Black Tampico / Wire Center: For medium to heavy sweeping. The center row of steel wire moves metal and scraps while sweeping surface dirt and dust. For indoor/outdoor use on smooth or rough concrete or asphalt. Block is 2-7/8" wide and 7/8" thick. Trim 3".

	18"	24"	
Wood Block	101618	101624	

101624

Brown Poly Border / Heavy Maroon Poly Center:

For medium to heavy sweeping. Use in dry/wet conditions. Great for industrial applications such as smooth/rough concrete or asphalt. Block is 2-7/8" wide and 7/8" thick. Trim 3".

	18"	24"	36"
Wood Block	101118	101124	101136

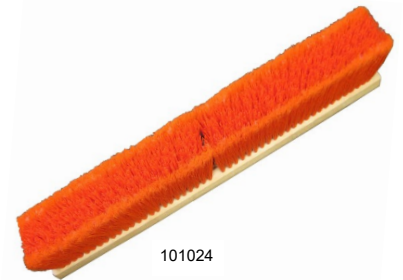

101124

Flagged Orange Border / Stiff Orange Center:

For medium sweeping. Flagged polypropylene border sweeps fine dirt while the stiff polypropylene center moves heavier material. Block is 2-7/8" wide and 7/8" thick. Trim 3".

	18"	24"	36"
Wood Block	101018	101024	101036
Plastic Block	101918	101924	

101024

Flagged Gray Border / Black Poly Center:

For medium sweeping. Soft border sweeps fine dirt while the medium center moves heavier material. Block is 2-7/8" wide and 7/8" thick. Trim 3".

BUG SPONGE

Sponge with nylon mesh netting. Scrub dishes, bugs, debris from windows and mirrors. 4 x 5-1/4.

370205

WASH MITT

Durable Microfiber cleaning mitt. Lint-free, scratch-free, and non-abrasive to paint. Elastic wrist cuff helps keep mitt in place.

400112

PARTS WASHING BRUSH

Polypropylene: Brush removes grease & dirt from automotive parts. Strong handle with durable polypropylene bristles will hold up under repeated use in cleaning solvents. 1" dia., wood handle, trim 2-3/4".

530510

Tampico: Ideal for applying solvents to metal parts for the removal of grease and oil residue build-up. Tampico fiber, 1" dia. metal ferrule, wood handle, trim 2-3/4".

530710

ACID BRUSH

Tin Handle: Black horsehair bristle. Disposable brushes are typically used to apply glue, acid, lubrication or coatings when the application calls for one-time brush usage. This brush is effective for soldering and seam sealing, in lead work and general-purpose cleaning applications. 6" overall length, 3/4" trim.

Sold in gross quantities only.

#1 3/8" Width 530601

CARPET PILE BRUSH

The 18" wide carpet brush with 2 rows of black poly bristle is a popular aid to carpet steam cleaning. Bristles loosen and lift soils for wet vacuum pickup. Wood block is 1-1/4" thick. Trim 2". Order threaded handle separately.

480118

CARPET SPOT BRUSHES

Wood Handle: Hand-held spotting brush filled with 5/8" trim, stiff white nylon. Remove spots from clothes, fabrics and carpets. Excellent for tamping. 6-3/4" x 1-5/8" wood block.

491007

Toothbrush Style: Plastic block. Designed for small stains and hard to reach areas on carpet. 7-1/4" long x 1/2" wide, 1-1/2" Brush face, Trim 1/2".

Horsehair Fiber 490207
White Nylon Fiber 490307

WIRE SCRATCH BRUSHES

Steel wire bristle brushes are used for removing paint, grease, rust and corrosion from metal. Also use to clean off excess brick mortar. Available in several styles to complete a variety of projects. Hardwood sanded block.

Shoe Handle Style: Wood block is 10" long.
4 x 16 rows of tempered steel. Trim 1-1/4".

Without Scraper	540110
With 1-1/2" Scraper	540210

Curved Handle Style: Wood block is 14" long.
3 x 19 rows of tempered steel. Trim 1-1/8".

Without Scraper	540314
With 1-1/2" Scraper	540414

Wire Whisk Brush: Removes rust, grease, and corroded metal. Use for dusting and removing chips, borings, cleaning casters and battery terminals. 9-1/2" x 3" wood paint brush style block. 4 x 8 rows, 2-5/8" trim.

540803

Straight Black Wire Brush: Removes rust, grease, and corroded metal. Can be used for grill cleaning. 7-1/8" x 2-1/4" wood block. 6 x 19 rows of steel wire. Trim 1-3/4".

540907

Toothbrush Style: Plastic block. Designed for small jobs and detail work. 7-1/4" long x 1/2" wide, 1-1/2" Brush face, Trim 1/2".

Brass Wire	490107
Stainless Steel Wire	490407

MASONRY & ROOFING BRUSHES

Cement Coater: 5-row Tampico, 6" hardwood block, attached red handle, Perfect for almost any type of cement, brick, tile, stone, or other masonry work. 4" trim.

460106

Water Paint Brush: 4-row Tampico, 6" hardwood block. Perfect for applying water-based masonry paints to exterior painted brickwork. Order threaded handle separately. 3-1/2" trim.

460306

3 Knot Roofing Brush: 3 knots of Tampico, trimmed to 3-1/2". Metal ferrules. 6" wide wood block. Order tapered handles separately.

460406

Concrete Finishing Brushes: Great for applying a non-slip or fine finish to freshly applied concrete surfaces. Lacquered wood block, One threaded handle hole and hang up hole. Block is 1" wide and 7/8" thick. Trim 3".

	24"	36"
Polypropylene:	461024	461036
Horsehair:	461124	461136

COUNTER BRUSHES

Foam black plastic blocks or wood blocks available for dusting fine to medium particles in a variety of environments. Hanging hole for convenient storage and quick access.

Flagged Polypropylene: Flagged polypropylene bristles are best for dusting fine particles on smooth surfaces. Length is 13" with a 2 -1/2" trim and 8" brush face.

Foam Block	Gray	250108
Wood Block	Gray	251508

Black Tampico: For light to medium dusting. Removes sawdust, glass particles, and everything in between. Natural fiber brush is resistant to heat and chemicals. Length is 13" with a 2 -1/2" trim and 8" brush face.

Foam Block	Black	250208
Wood Block	Black	250808

Black Plastic: For all-purpose dusting. Length is 13" with a 2 -1/2" trim and 8" brush face.

Foam Block	Black	250308
-------------------	--------------	---------------

Soft Flagged Green Fiber: For all-purpose dusting. Length is 13" with a 2 -1/2" trim and 8" brush face.

Foam Block	Green	250408
-------------------	--------------	---------------

Flagged Orange Plastic: For all-purpose dusting. Length is 13" with a 2 -1/2" trim and 8" brush face.

Foam Block	Orange	250708
-------------------	---------------	---------------

Horsehair & Poly Blend: For fine dusting. Horsehair blend bristles provide scratch free dusting of delicate surfaces and for industrial applications. Length is 13" with a 2 -1/2" trim and 8" brush face.

Foam Block	Black	250608
-------------------	--------------	---------------

100% Horsehair: For fine dusting. Horsehair bristles provide scratch free dusting of delicate surfaces and for industrial applications. Length is 14" with a 2 -1/2" trim and 9" brush face.

Wood Block	Black	251009
-------------------	--------------	---------------

DUSTERS

Ultra soft material allows fast and gentle dusting of items and surfaces. Available in poly wool, 100% lambs wool & microfiber.

Poly Wool:

20" Long Duster **470220**
48" – 82" Extension Duster **470380**

100% Lambs Wool

27" Long Duster **470427**

Microfiber

48" - 82" Extension Duster **176482B**

ROUND DUSTER

Dust and remove cobwebs from ceilings and fixtures. Soft, rounded bristles reach corners with ease. Polypropylene construction provides durability. Use hand held or order threaded handles separately.

500108

Extension Handles:

Light weight: 2 section telescoping white powder coated metal. Adjusts from 30" to 60". Threaded plastic tip.

2.5-5' 330259

Medium weight: 3 section telescoping black powder coated metal. Adjusts from 46" to 118". Threaded plastic tip.

4-10' 330609

OBLONG WALL & CEILING DUSTER

Twisted-In-Wire with black polypropylene. Captures & holds fine dust & dirt. Perfect for dusting fans. 12" overall width. Use hand held or can order threaded handle separately. Packed 2 /ctn.

500212

CEILING BRUSH / DUSTER

4.5" cob web brush with black 64mm crimped plastic fill. Ideal for cleaning cobwebs & debris. Order threaded handle separately.

390208

BOOT & SHOE BRUSH

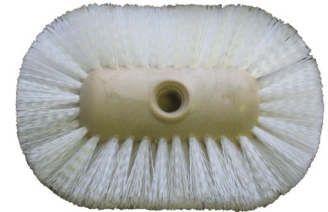

Reduce tracking of dirt. Use with brushes down for general scrubbing or flip brushes up to scrape heavier debris. Steel frame can be bolted down for extra stability. Brushes are easy to replace. Packed 1/ctn.

Complete Boot & Shoe Brush 550910
Replacement Brush (2 Required) 551010

TANK BRUSH

8" White nylon, 5-1/2" width tank brush, 1-5/8" trim. Use as a shower & spa brush to effectively clean hard to reach spaces. Clean kettles & tanks with ease. Order threaded handle separately.

390108

FRYER BRUSHES

Straight Style: Twisted-in-wire, brush part 1-3/8" x 7-1/2", white foam handle, 28" overall length

Natural Polyester 520428

L-Tipped Style: Twisted-in-wire, brush part 7/8" x 10", white foam handle, 23" overall length

Black Polyester 520523

WAX APPLICATORS

Synthetic wool colored material, hardwood blocks, wing-nut assembly. Recommended for water based finishes. Refill pads can be washed with soapy water immediately after use. Order threaded handle separately.

UTILITY ROTARY SCRUB

Round wood block filled with crimped black nylon. Use for auto upholstery and mats, spot scrubbing, carpeted stairs, closet floors, corners, and other hard to reach areas. 5/8"-11 metal threading in center. Fits 1/2" dia. electric & pneumatic rotary polishers. Packed 24/ctn.

5" Dia. 550405

ROTARY SELECTION GUIDE

How to select the correct Better Brush Rotary product:

Brushes are sized 2" less than the machine, allowing the brush to clear the apron/shroud of the machine and any bristle flair caused by the normal use of the brush.

Pad Drivers are sized 1" less than the machine. The short trim style is built with a molded-in 1 ½" riser.

We offer a full range of bristle choices ranging from soft to stiff and everything in between of nylon, polypropylene, wire, grit, and natural fibers.

When determining bristle types consider the following factors: speed, down pressure, choice of chemicals to be used, soil level and floor conditions.

The following chart is a helpful guide that shows types of bristles typically used on the described floors.

Better Brush is not responsible for damage when the wrong product is used for the application.

NYLON GRIT ROTARY BRUSHES

Nylon grit brushes are effective, convenient and economically sound replacements for disposable pads, often lasting more than 100 times longer without clogging. As the grit number increases, the brush gets softer. Silicon carbide grit is impregnated into the nylon filament at the point of extrusion, making it part of the bristle. The result is effective cleaning with a longer brush life.

46 GRIT Rotary Brush

Purple, extra stiff, .065" / 46-grit abrasive bristles. 1-3/4" trim. Recommended for stripping or heavy scrubbing on unsealed concrete to remove heavy dirt, grease, and compacted soils. More aggressive than black pads. Must be used wet.

Available in sizes: 10" thru 21"

780110 thru 780121

80 GRIT Rotary Brush

Black, stiff, .050" / 80-grit abrasive bristles. 1-3/4" trim. Recommended for stripping concrete, terrazzo and tile floors. Also used for scrubbing heavily soiled concrete floors. Outlasts more than 100 black or brown pads without clogging. Must be used wet.

Available in sizes: 10" thru 21"

760110 thru 760121

120 GRIT Rotary Brush

Natural, stiff, .040" / 120-grit abrasive bristles. 1-3/4" trim. For lighter commercial and janitorial scrubbing on concrete, terrazzo and tile floors. Outlasts more than 100 green or blue pads without clogging. Must be used wet. Available in sizes: 10" thru 21"

770110 thru 770121

180 GRIT Rotary Brush

Blue, medium stiffness, .035" / 180-grit abrasive bristles. 1-3/4" trim. For general scrubbing on resilient, non-slip flooring, ceramic, terrazzo, quarry tile and smooth coated concrete floors. Outlasts more than 100 blue or red pads without clogging. Must be used wet. Available in sizes: 10" thru 21"

750110 thru 750121

500 GRIT Rotary Brush

Light green, flexible, .018" / 500-grit abrasive bristles. 1-3/4" trim. For polishing or light scrubbing and spray buffing of coated floors. Outlasts more than 100 red or white pads without clogging. Must be used wet. Available in sizes: 10" thru 21"

740110 thru 740121

Abrasive Bristle Choices:

46 Grit: Most aggressive grit scrub brush, used for extra heavy-duty stripping & scrubbing of heaviest soils on the roughest floors. Replaces black pads.

80 Grit: Recommended for heavy-duty stripping & scrubbing of industrial floors. Replaces black or brown pads.

120 Grit: For general-duty stripping & scrubbing of concrete, brick, & quarry tile floors. Replaces green or blue pads.

180 Grit: For daily scrubbing of resilient tile & finished floors. Replaces blue or red pads.

500 Grit: For gentle scrubbing & polishing. Replaces red or white pads.

SYNTHETIC BRISTLE BRUSHES

Poly and Nylon Bristle Brushes are designed for convenient cleaning of hard, soft and carpeted floors. Available in longest lasting nylon or economical and reliable polypropylene.

Soft Black Nylon

This softer, general-purpose brush is ideal for scrubbing light soils on decorative tile and softer finished floors. Too soft for heavy soils. 1-3/4" trim length. Light aggressiveness. Longest bristle life. .020" bristles. Available in sizes: 10" thru 21"

660310 thru 660321

Stiff White Nylon

Use long lasting, white nylon for general-purpose scrubbing of medium soils on decorative floors. Nylon will not scratch tile, terrazzo or coated surfaces. 1-3/4" trim. Medium aggressiveness. Longest bristle life. .030" bristles. Available in sizes: 10" thru 21"

660210 thru 660221

Nylon Carpet Brush

The outer .030" nylon bristle rows carry the weight of your buffer. The inner .020" nylon bristle rows soften when wet for gentle scrubbing. 1-3/4" trim. The brush block has a 1" riser and shower feed holes. Available in sizes: 11" thru 21"

660711 thru 660721

Soft Yellow Poly

Use this softer poly bristle brush with a detergent for lighter-duty scrubbing on waxed or finished floors. Light aggressiveness. Lower cost but shorter bristle life than nylon. Longer life than natural fiber. .020" bristles. Available in sizes: 10" thru 21"

660410 thru 660421

Stiff Blue Poly

Use general-purpose poly to scrub medium soils on concrete and coated floors in commercial and industrial facilities. It has the same medium aggressiveness as stiff nylon. Lower cost but shorter bristle life. .030" bristles. Available in sizes: 10" thru 21"

660110 thru 660121

Poly Carpet Brush

Preferred for low nap carpets. More aggressive than the nylon carpet brush. The blue outer .030" rows carry the buffer weight. The yellow, softer inner .020" rows do the scrubbing. The brush block has a 1" riser and shower feed holes. Available in sizes 12" thru 20".

660612 thru 660621

Glide Plate for Carpet Brushes:

The optional, adjustable height plate bolts under the carpet brush and bears part of the buffer weight. Adjust the plate height to fit the scrubbing strength desired. Must order 1" riser separately. **720508**

Break in Your Carpet Brush:

Soften or "flag" the brush bristles before the first use to avoid carpet wear. Run your machine DRY on a rough concrete floor for 10 minutes. Then wash the brush to remove any soils. Always make sure that the shower feed holes are not plugged.

NATURAL FIBER BRUSHES

Natural fiber bristle brushes scrub and polish hard floors. **Wire brushes** are the most aggressive strippers and scrubbers for the heaviest, compacted soils. **Sandpaper drivers** are ideal for sanding a wooden surface down.

Bassine Scrub Brush

Black natural bristle brush has traditionally been used for scrubbing and polishing. 1-3/4" trim. Bassine is often replaced with longer-life poly or nylon. Low to medium aggressiveness. Available in sizes: 10" thru 21"

600110 thru 600121

Union Mix Brush

This combination of Bassine and Tampico fibers create a soft brush for light scrubbing and polishing of decorative floors. Low cost but shorter bristle life than soft synthetic bristle brushes. Often replaced with a soft poly bristle brush. 1-3/4" trim. Low to medium aggressiveness. Available in sizes: 10" thru 21"

610110 thru 610121

Tampico Polishing Brush

Use Tampico for polishing the smoothest waxed floors to a high shine. 1-3/4" trim length. Do not use on rough or uncoated floors. Tampico can replace a white pad. Lowest aggressiveness. Softest brush for smooth and finished floors. Shorter brush life than soft nylon or soft poly. Available in sizes: 10" thru 21"

690110 thru 690121

WIRE BRUSHES

Wire Bristle Brush

Use to cut, strip and scrape heaviest soils and old floor finishes. Wire is more aggressive than the heaviest grit brushes. To avoid corrosion and cracking, clean the wire brush after each use and spray bristles with lubricant. Never store the buffer on the wire brush. Highest aggressiveness. Always wear gloves when handling wire brushes. Available in sizes: 10" thru 21"

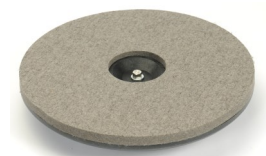

620110 thru 620121

SANDPAPER DRIVER

3/4" thick felt sheet smooths the sandpaper surface, absorbing vibrations and minimizing chatter. Left-handed thread bolt design secures the cone as the machine spins in the clockwise direction. Includes 651005 universal cast aluminum plate. Replacement cone and left-handed bolt available for special order (#721205).

15"	630315
16"	630316
17"	630317
19"	630319

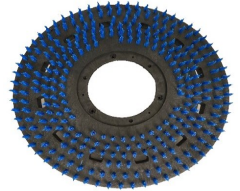

PAD DRIVERS & ACCESSORIES

Our Pad Drivers are built on the strongest HD plastic blocks on the market. A riser is molded into the block for extra clearance under the buffer apron, letting you use larger pads for greater productivity. The water ring & shower feed holes in the block direct & deliver scrub solution to the floor. Optional Pad Centering devices make pad mounting easier & more accurate. Recommend ordering 1" below the size of the machine.

Short Bristle - 1/2" Trim

Straight, stiff, .040 poly bristles grab and drive pads for fast polishing, buffing, scrubbing and stripping. A 1-1/2" riser is molded into the top of the HD plastic block for extra height, letting you use a larger diameter pad for greater productivity. Sizes 10" & 11" have 1/4" riser. Available in sizes: 10" thru 21"

630110 thru 630121

Long Bristle - 1" Trim

The long bristle pad driver has the same features as the short version, but uses 1" long, straight, stiff black poly bristles to cushion and drive a pad or carpet bonnet. Order 1" riser separately. Available in sizes: 10" thru 21"

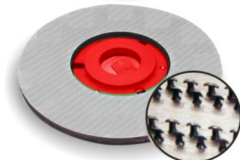

630210 thru 630221

Harpoon Style

A strong plastic sheet with molded harpoons is mechanically bonded to a HD pad driver block with a 1-1/2" riser. The harpoons hold and drive a pad. Access holes in the harpoon sheet are positioned under the shower feed holes in the block, allowing scrub solution to feed through the pad driver onto the floor. Available in sizes: 13" thru 20"

630513 thru 630520

High-Speed Harpoon Style

The high-speed version has the same features as the standard harpoon pad driver, but adds a 1/2" thick foam pad between the pad driver block and the harpoon sheet. This pad absorbs vibrations when a buffer is operating at 300 to 1000 rpm. Available in sizes: 15" thru 20"

630715 thru 630720

Accessories:

The base mounts to the bottom of a pad driver and centers the pad. The clip holds the pad against the pad driver face.

Pad Centering Device Red 720105
Pad Centering Device Tan 720205

720105

720205

A Complete Pad Driver Order:

When ordering a pad driver, be sure to include:

- Pad Driver block size: typically 1" smaller than the size of your buffer.
- Mounting Hardware: clutch plate or lug set
- Optional Pad Centering Device makes pad mounting easier & holds the pad when the buffer is in transit.

Short Bristle pad drivers (Sizes 12-21) have a 1-1/2" riser molded into the block.

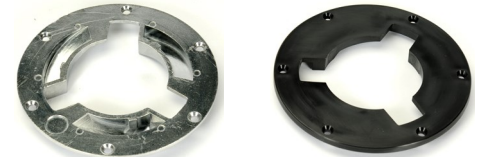

MOUNTING HARDWARE & ACCESSORIES

Mounting hardware meets or exceeds OEM specifications. Clutch plates fit a 5" center hole in the brush block. Lug sets are factory mounted for correct fit and vibration free operation. Contact our customer service team with the machine make and model to confirm the correct hardware needed to complete your rotary or pad driver order.

Cast Aluminum Clutch Plate: Aluminum plate resists cleaning chemicals. Recommended for scarifying and high torque / high shock jobs. Plates mount over a 5" center hole in the brush block.

92 Style "B" (Universal) 651005

651005

650405

High-Density Plastic Clutch Plates: Plastic plates flex to reduce vibration and compress to grab the buffer drive plug. Plates mount over a 5" center hole in the brush block.

1-1/4" Riser 680206

680106

SOLUTION TANK

4 Gallon capacity tank features large fill opening, brass hardware, and multi-machine mount. Durable and damage resistant. Features a flow control valve which allows you to properly manage the amount of solution used during cleaning. Wide opening and gradation marks on the tank allow for easier fill and to prevent spills.

720304

CYLINDRICAL BRUSHES

Cylindrical brushes are available in a variety of filaments. Select the bristle type that matches the floor & the soils being scrubbed. Bristles are set in high-density tubes that are custom designed to be exceptionally straight, vibration-free and with consistent wall thickness for strong & reliable bristle mounting. Tubes are fit with drive notches, splines, or drive hubs to match OEM specifications.

****Available for special order only. Contact our customer service team with the machine make and model****

Cylindrical Scrubbing Brushes:

Nylon Soft & Stiff: Use soft for gentle scrubbing of decorative floors, tile & terrazzo. Use stiff for scrubbing smooth & coated concrete. Soft nylon has light aggressiveness. Stiff nylon has medium aggressiveness.

Poly Soft & Stiff: For general purpose scrubbing. Use soft for light scrubbing of decorative floors, tile & terrazzo. Use stiff for scrubbing smooth & coated concrete. Medium aggressiveness.

Poly Non-Scuff: Smaller diameter filament is used for lightest duty scrubbing of waxed & finished floors. Very soft with low aggressiveness.

80 Grit: Designed for heavy duty scrubbing of floors with impacted & built-up soils. Very effective on rough surfaces such as asphalt & worn concrete. Medium aggressiveness.

46 Grit: Heavier grade grit provides extra scrubbing strength. Highest aggressiveness.

Nylon Brush

Proex Brush

Side Broom

Cylindrical Sweeping Brushes:

Proex: Blend of 3 different polypropylene filament for excellent all-purpose sweeping. Medium aggressiveness.

Nylon: Use for sweeping rough surfaces or high temperature soils. Medium aggressiveness.

Proex & Wire: Wire provides light cutting action while the Proex bristles lift & sweep the soils. Ideal for sweeping compacted dirt & dried mud. High aggressiveness.

Natural Fiber & Wire: Great for sweeping dry, dusty floors with compacted soils. Wire scrapes & lifts the hard soils while the natural fibers sweep. Medium to high aggressiveness.

Side Brooms:

Use to sweep close to walls & gutters, increasing the sweeping path. Bristles are set in coated plywood or plastic blocks. Most machines use either a poly or nylon bristle. Some larger sweepers may also use a flat wire side broom for the heaviest sweeping of factory floors, paved roads & parking lots.
